

AUSTRALIAN HISTORIC MOTORING FEDERATION (AHMF)

Information Survey 2010

Dear Club Member,

The AHMF (Australian Historic Motoring Federation) requests your assistance to help expand a database of information to allow us to effectively lobby Governments and other bodies on issues that may affect our interest in the historic motoring scene.

A similar survey was conducted in the United Kingdom in the late 1990's and in Australia in 2006. The results of the Australian survey were quite staggering and have been extremely valuable in representations to Government and to those who want to remove *old cars* from the road.

The UK survey is currently being undertaken again and it is also including clubs in the EU countries. Hence we also will continue our Australian data collection. This new 2010 form is designed to be completed and collated electronically but may be downloaded printed and submitted in hard copy form..

Please take the time to complete this survey as best you can. Whilst we realise it is unlikely that you will have 100% recall or all records of your expenses, it is important that a fair and reasonable assessment of your spending is recorded if it is to be of relevance.

If you have any comments or other expenses not listed here please record them at the bottom of survey or on a separate sheet and attach it to the survey.

All information collected is confidential. We do not ask you to identify yourself unless you wish to do so. If you are happy to identify yourself it may be helpful should we need further information. Please be assured that if you do identify yourself, your name will be known to no one other than those compiling this survey.

On completion of the form please Email it to the AHMF as indicated, OR print out and post to :
